

Fiscal Management Goals - DA

The quantity and quality of learning programs are directly dependent on the funding provided and the effective, efficient management of these funds.

It will be the responsibility of the Superintendent and Business Manager to see that the district's fiscal management methods are up-to-date and modeled after the best accepted business practices in order to serve the goal of modern educational programs for the children and youth of the district.

The Board recognizes the important trust it has been given with the responsibility of managing a large amount of public resources. As trustee of local, state, and federal funds allocated for use in public education, the Board will be vigilant in fulfilling its responsibility to see that these funds are used wisely for the achievement of the purposes for which they have been allocated.
