

DEVELOPMENT OF REGULATIONS

Often the Board's policies will require developing regulations. The Superintendent shall develop these in consultation with administrators and other staff and submit them to the Board for review when Board action is necessary or advisable.

The Superintendent's regulations, along with those officially adopted by the Board, shall be included in the Board's policies and regulations manual.

Within the policies and regulations of the Board and the regulations of the Superintendent, principals are authorized to establish rules and procedures for the staff and student bodies of their schools.
